PATENT NO. 7805805

SETUP

1. Remove entire contents of box.
2. Insert hose in ChipBuddie.

3. Attach to vacuum.

USAGE

Scrape off old paint.

WARNING - If using this product in the removal of lead paint a Dustless HEPA vacuum must be used. The removal of old paint may generate dust or fumes that contain lead. Exposure to lead may cause brain damage or other adverse health effects, especially in young children and pregnant women. Follow all federal, state and local laws including the U.S. Environmental Protection Agency's Renovation, Repair and Painting law or similar state law.

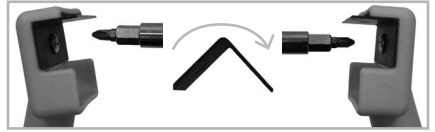

Remove popcorn ceiling.

WARNING - If your ceiling texture was applied before 1979, do not attempt to remove it without having it tested for asbestos content. Asbestos fibers, when inhaled, can cause serious health problems including cancer. Prior to the 1980's, asbestos was used in thousands of different construction materials and manufactured products, including acoustic (popcorn) ceiling textures. Contact the Environmental Protection Agency for more information or have it tested by a professional testing company.

CHANGING BLADE

Blades are double-sided. When one side is dull, remove blade and flip over. Replace blade after both sides have become dull.
